The Office

Orpheu

ORPHEU is a disruptive proposal.

The brief presented aimed to combine a minimalist touch with the trend of round tubes in corporate spaces.

The focal points are the construction reduced to the essential maximum and the easy possibility to create larger poles and more places.

The chrome detail is the visual result of the connection between the leg and the beam. The leveller is another differentiating detail to complement the language of the whole composition, as is the border in the same color as the structure.

Orpheu Multiworkstations

A line that allows users to work more fluidly thanks to its wide range of accessories. Orpheu comprises storage satellites, monitor support with shelf, lighting, divider, and cable routing.
