TRIM WOOD

office solutions

The Trim Wood line introduces itself as a derivation from our Trim line, known for expressing operational furniture remarkably with compass-shaped legs. This new variant stands out, featuring solid wood legs a choice surpassing aesthetics, providing rich texture and natural tones to each piece, resulting in a unique expression of elegance and sophistication. In parallel with the original Trim, Trim Wood adheres to the principles of the triangle's harmony and balance, creating more spacious, inspiring, and efficient spaces through a wide range of solutions.

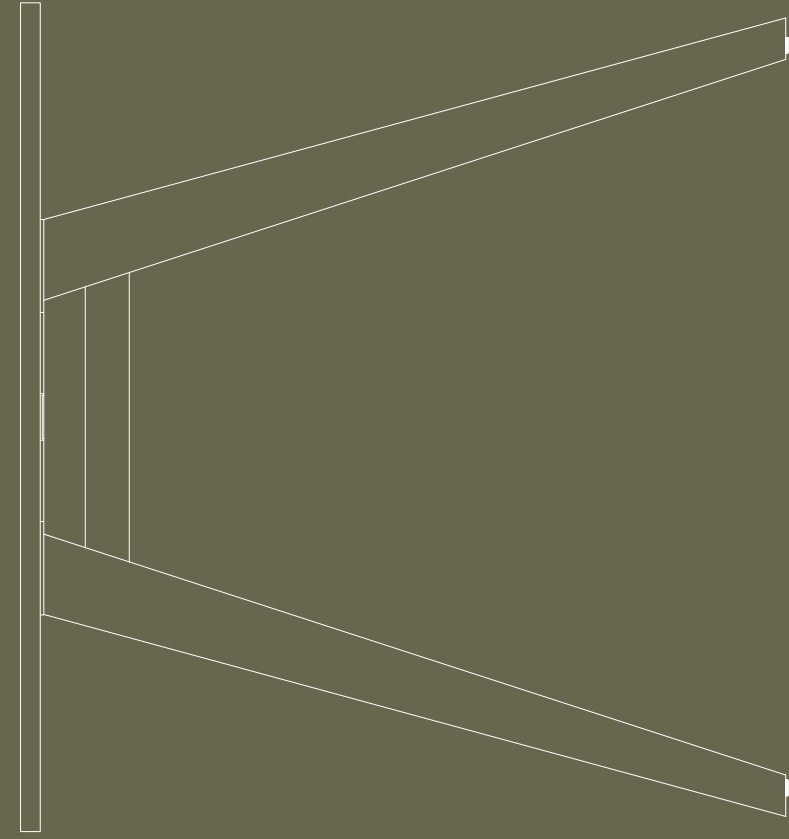

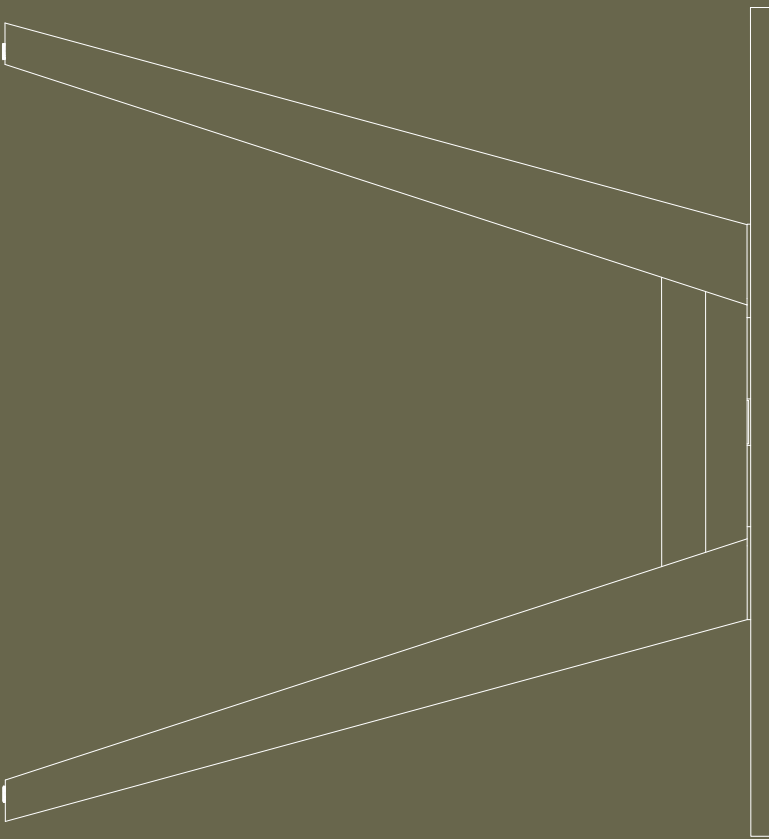

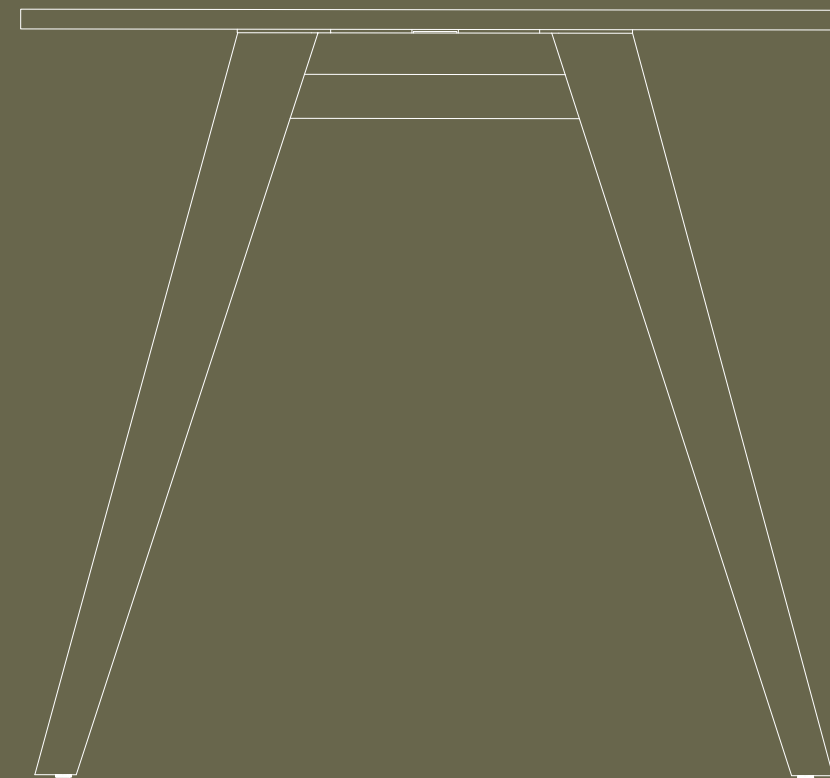

Trim Wood exemplifies our ongoing commitment to excellence, delivering solutions that meet customer needs.
