

edge

EDGE represents the basic idea of what a table is. With a single material and thickness for the top and legs, it looks compact, light and modern. Its sharp edges make it stand out from its surroundings as if it was a portrait.

Legs with a square profile of 50x50mm, top with 50mm thickness.
The M41 Oak sides conceal a reinforced honeycomb structure, which guarantees rigidity and stability without the need for intermediate legs.
Non-dismountable structure, supported on the floor by a system of hidden levellers.
