SOLUBO.

ELO.1

ELO.1 is a table designed with a focus on structural efficiency, ease of transport, and intuitive assembly, without compromising on robustness or industrial aesthetics. Ideal for work environments, teaching, or contemporary living spaces, ELO.1 has a discreet but firm presence, with clean lines and honest materials.

The design is guided by a modular and collapsible logic, allowing all parts to be packed in a flat package, the size of the tabletop, facilitating storage, transport, and assembly in any context.

With an entirely metal structure, consisting of a steel sheet top, rectangular frame, and detachable legs, ELO.1 offers a solid, versatile, and durable solution, adaptable to multiple lengths and ready to meet the demands of contemporary architecture.
